ABOUT US

National Skill Development Corporation (NSDC), a unique public private partnership under the aegis of the Ministry of Skill Development and Entrepreneurship, was established with the objective to facilitate skill training in partnership with industry and private training providers. NSDC provides funding for building scalable, for-profit, vocational initiatives across the country. The emphasis lies on supporting programs with training curriculums closely aligned to and deeply integrated with industry needs.

PARTNER WITH US

At NSDC, the Business Development (BD) team is responsible for building potential business propositions that create large-scale, sustainable capacity for on-ground skill development across India. The partners are identified through calls for proposals and proactive outreach by the team.

NSDC supports such propositions through appropriate financial instruments considering the nature of proposal, viability, attractiveness of segment, geographies proposed and category of applicants, among other factors.

PARTNER FOR GROWTH

HIGHLIGHTS

- Presence in 29 states and 7 UTs
- 350+ Training Partners
- 7,000+ Training Centres
- 2,000+ Job Roles
- 39 Sector Skill Councils

For the comprehensive list of partners, please visit www.nsdcindia.org
IDENTIFY
Interested entities can identify and apply for the project based on the understanding of the market demand and aspirations and thereby define their project scope.

BUILD
Prepare a detailed report to highlight entity’s capability, value proposition of the project, financial strength and robustness of the model accompanied by supporting documents.

PRESENT
The proposal must be submitted along with the following documentation:
- Proposal Documents—Technical narrative, financial projections, and undertakings
- Constitutional Documents—Incorporation documents, memorandums, articles and identification proofs
- Financials and Filings—Audited financials and filings as per applicable statute
- Training Credentials—Details of management and project execution teams, past training certification and placement records

EXECUTE
Motivate, counsel and select beneficiaries to ensure right fit, establish training centres with required infrastructure, develop and execute training plans
Facilitate assessment and certification of trainees and establish placement linkages with prospective employers

FUNDED
NSCIC provides funding support for commercially viable, scalable and sustainable businesses in the skills domain, run by any registered, legal entity.
The following are the salient features of the funding support:
- Funding is primarily by way of debt of up to 75% of the project investment (85% in the case of not-for-profit organisations)**
- 0% rate of interest
- 3 years moratorium
- 7 year tenure including moratorium
- 20,000 minimum training commitment along with assurance of at least 70% placement
- Collateralised by way of:
  - First charge on assets, cash flows, IP, corporate/personal guarantee
  - Hard-collateral (in the form of Bank Guarantee, lien on FD, or mortgage of property)

NON-FUNDED
NSCIC partners with reputed entities, not requiring financial assistance, having:
- Established credentials
- Been operational for at least 5 years
- Exhibited a trend of sustainable growth in such time of operation

INNOVATION
NSCIC identifies and provides support to extraordinary innovative enterprises that:
- Address critical gaps in the skill development value chain
- Positively impact the skill development ecosystem

* NSCIC supports various models from solution-based to technology-driven training, sustained through diversified revenue streams including, but not limited to, (i) Student fee (ii) Corporate funded (iii) CSR sponsored
**Grant & Equity funding provided for proposals meeting select criteria.
Also, funding may be considered for strategic large-scale projects requiring structured support.

*REPRESENTATION FROM GOVERNMENT, INDUSTRY, NGO & PRIVATE EQUITY
CREATE

INDUSTRY SPEAKS

Skilled people are performing better than non-skilled people. So, the journey now will be towards certifying the skilled people, pushing them much more than the normal people and creating a career path for them.

Kshama Sanyal
CEO, Zuba Group

Skill is, in addition to the potential education and upbringing of the line with hands on experience is what is going to shape the youth in a job of potentially entrepreneurship so that they can themselves create jobs.

Dr. S. Ramanarayanan
Former Vice Chairman, TOIC

There is a paucity of skill in our country. All that is needed is having clear vision, putting them at the right path. and direct them in giving them opportunities.

K. Srikkanth
Former Chairman, NCUI Expert Committee Director, Wipro Limited

Our vision is to create livelihood in the informal sector through education, employment and entrepreneurship. The partnership with NSDC is more on informative than prescriptive offering opportunities for the youth.

Dr. Gayathri Venkatesan
CEO, LabourNet services

Skills are what take us far and not about the degree. NSDC has proven to be one of the finest examples of PPP model that accomplishes best practices from private and public sector to empower a more learned workforce.

Sukesh Bhat
MD & CEO, Career learning Ltd.

In the era of globalization, one must impart knowledge to students to take care of their success in the world of skill development. Skill India Mission is the initiative that will lead to achieving inclusive skill development and support Make in India. Digital India, Smart India and others.

Mamata Banerjee
Chancellor, Indraprastha College, Delhi University

India’s demographic dividend has also opened the world market and the world sees India as a hub of skill and potential global workforce. The window of opportunity requires a future-ready workforce.

RGN Das
MD & CEO, NSDC
