No parts of this publication may be reproduced, stored or distributed in any form or by any means either on paper or electronic media, unless authorized by the Media and Entertainment.
Skilling is building a better India. If we have to move India towards development then Skill Development should be our mission.

Shri Narendra Modi
Prime Minister of India
Acknowledgements

Media & Entertainment Skills Council (MESC) would like to express its gratitude to all the individuals and institutions who contributed in different ways towards the preparation of this “Facilitator Guide”. Without their contribution it could not have been completed. Special thanks are extended to those who collaborated in the preparation of its different modules. Sincere appreciation is also extended to all who provided peer review for these modules.

The preparation of this manual would not have been possible without the Media and Entertainment Industry’s support. Industry feedback has been extremely encouraging from inception to conclusion and it is with their input that we have tried to bridge the skill gaps existing today in the Industry.

This manual is dedicated to the aspiring youth who desire to achieve special skills which will be a lifelong assets for future endeavors.
About this Guide

This Facilitator Guide is designed to enable training for the specific Qualification Pack (QP). Each National Occupational (NOS) is covered across Unit/s.

Key Learning Objectives for the specific NOS mark the beginning of the Unit/s for that NOS. The symbols used in this book are described below.

Symbols Used

- **Steps**
- **Time**
- **Tips**
- **Notes**
- **Objectives**
- **Do**
- **Ask**
- **Explain**
- **Elaborate**
- **Field Visit**
- **Practical**
- **Lab**
- **Demonstrat**
- **Exercise**
- **Team Activity**
- **Facilitation Notes**
- **Learning Outcomes**
- **Say**
- **Resources**
- **Activity**
- **Summary**
- **Role Play**

8. Maintain Workplace Health and Safety .................................................................52
   Unit 8.1: Maintain Workplace Health and Safety .................................................. 54

   Unit 9.1: - Communication Skills .......................................................................... 58
   Unit 9.2: - Professional Skills .................................................................................. 59

10. Employability & Entrepreneurship Skills .............................................................61
    Unit 10.1 – Personal Strengths & Value Systems ....................................................63
    Unit 10.2 – Digital Literacy: A Recap .....................................................................65
    Unit 10.3 - Money Matters .....................................................................................66
    Unit 10.4 - Preparing for Employment & Self Employment ......................................67
    Unit 10.5 - Understanding Entrepreneurship ..........................................................68
    Unit 10.6 - Preparing to be an Entrepreneur ............................................................70

10. Annexures 1: Training Delivery Plan....................................................................73
    Annexures 2: Assessment Criteria..........................................................................78
1. Introduction

Unit 1.1 - Introduction to the Media and Entertainment Sector
Unit 1.2 – Key words
At the end of this module, you will be able to:

1. Importance of media and entertainment sector in our life.
2. Familiarize with Role and responsibility of Animator.
3. Understand the role of the Animator.
Icebreaker

**Unit Objectives**

At the end of this unit, you will be able to:

1. Introduce each other
2. Build rapport with fellow students and the trainer
3. Find the interest of students

**Resources to be used**

- Available objects such as a duster, pen, notebook etc.
- A small bag to be used as parcel

**Do**

- Make the students stand in a circle, close enough to the person each side of them that they can pass the parcel quickly.
- Say ‘Stop’ when the when students least expect it. The person who has the parcel at that time should get out.
- Those who get out should introduce themselves by providing their names and a little additional information such as favorite hobbies, likes, dislikes etc.
- The winner of the game should stand and introduce himself/herself at the end of the game.

**Say**

- Thank the students for their participation.

**Notes for Facilitation**

- You could ask the students who get out during the game to be the music keepers. They can start and stop the music as the game progresses.
- Encourage shy students to provide information about themselves by prompting them with questions such as ‘what do you enjoy doing the most’, ‘what is your favorite movie or book’ etc.
Unit 1.1: Introduction to Media and Entertainment Sector

Unit Objectives

At the end of this unit, students will be able to:

1. Understanding Media & Entertainment Industry
2. Importance of Media & Entertainment in our life.
3. Familiarize with Role and responsibility of Animator.
4. Understand various parameters of Animator

Notes for Facilitation

- As this is first day so before starting the session introduce yourself, arrange the entire class and do some ice breaking activity and also ask everyone to introduce themselves.
- Use power point presentation to describe the topic.
- Start the session by stating the Session Objectives.
- During the session make sure all participants attentively listen to understand the content you deliver.
- Give quiz/test/assignment to check the students’ understanding of the topic
- Ensure that the session plan should be followed according to time duration to complete the course in-time
- At the end of session ask questions given in assessment section.

Before concluding the session summarizes the key learning or takes away.
Unit Objectives

At the end of this unit, students will be able to:
1. Familiarise with role and responsibilities of Animator.
2. Familiarise with technical terms associated animation

Explain

• Explain the technical terms associated with role of Animator
• Explain the important of these terms and when they are used.

Ask

At the end of session, the trainer should reserve the last 5 to 10 minutes for asking below questions.
Q1. What is difference between 2D and 3D animation?
Q2. What is abbreviation of CGI?
Q3. What is pixel?
Q4. What do you mean by rotoscoping?
Q5. Explain rendering process?
2. Animation Requirements

Unit 2.1 Fundamental and Principles of Animation
Unit 2.2 Life Drawings: Human Anatomy Fundamentals
Unit 2.3 Pre-Production Work
Key Learning Outcomes

At the end of this module, students will be able to:

1. Descriptive guidelines to animation
2. Familiarize with modelling.
3. Character sketching and Drawing of human anatomy.
4. Production concepts and their applicability to each project.
5. The various techniques available for animating objects.
6. Understanding various elements that influence the final art work.
7. Enact and emote.
8. Learn to create hook up poses and animation.
UNIT 2.1: Fundamental and Principles of Animation

Unit Objectives

At the end of this unit, students will be able to:
1. Key rules and techniques to animation.
2. Familiarize with modelling.

Explain

- Principles of animation.
- Modelling Process
- Basics of 3D Modelling

Ask

Q1. What is squash and stretch?
Q2. What is meant by anticipation?
Q3. Explain slow in and slow out with an example?
Q4. Explain difference between polygon modelling & curve modelling?
Q5. What is meant by extrude?
Q6. What do you mean by beveling?

Notes for Facilitation

- Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
- Before beginning the session, ask the students about what they learnt in the last session.
- Explain the Objectives of the current session.
- Use power point presentation to describe the topic.
- Divide the participants in groups and assign work related to the session for their better understanding.
- Give assignment to measure the student understanding of the topic.
- Ensure that the session plan should be followed according to time duration to complete the course in-time.
- Discuss the assignment questions with the students and provide correct answers.

At the end of the session summarize the key learning.
UNIT 2.2: Life Drawings: Human Anatomy Fundamentals

Unit Objectives

At the end of this unit, students will be able to:

1. At the end of the unit, you will be able to:
2. Life Drawings: Human Anatomy Fundamentals

Explain

- Facial Expressions.
- Explain different type of eyes, Mouth, Nose, Emotions, Body expressions

Ask

Q7. Explain difference between sleepy eyes and alert eyes?
Q8. Draw relaxed face?
Q9. Demonstrate difference between angry and sad face?
Q10. What are different body expressions?

Notes for Facilitation

- Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
- Before beginning the session, ask the students about what they learnt in the last session.
- Explain the Objectives of the current session.
- Use power point presentation to describe the topic.
- Divide the participants in groups and assign work related to the session for their better understanding.
- Give assignment to measure the student understanding of the topic
- Ensure that the session plan should be followed according to time duration to complete the course in-time
- Discuss the assignment questions with the students and provide correct answers.

At the end of the session summarize the key learning.
UNIT 2.3: Pre-Production Work

Unit Objectives

At the end of this unit, students will be able to:
1. Principles of Production as per projects.
2. The various techniques available for animating objects.

Explain

1. Pre-production and associated terms like storyboard, riging, texturing, modelling etc
2. Explain production process and associated terms layout, animation, rendering
3. Explain post production and associated terms like effects, compositing, editing.
4. Explain different animation techniques

Ask

1. Difference between pre-production, production and post production?
2. How do you animation medium?
3. Explain difference between traditional animation & 3D animation?
4. What is claymotion?
5. What is difference between cut out & silhouette?

Notes for Facilitation

- Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
- Before beginning the session, ask the students about what they learnt in the last session.
- Explain the Objectives of the current session.
- Use power point presentation to describe the topic.
- Divide the participants in groups and assign work related to the session for their better understanding.
- Give assignment to measure the student understanding of the topic.
- Ensure that the session plan should be followed according to time duration to complete the course in-time.
- Discuss the assignment questions with the students and provide correct answers.

At the end of the session summarize the key learning.
3. Conceptualize Creative Ideas for Production

Unit 3.1 Create Hookup Poses and Animation

Unit 3.2 Use Camera Angles to Emphasize Performance
## Key Learning Outcomes

At the end of this module, students will be able to:

1. Find inspiration in form of character references that would aid design.
2. Generate inventive ideas and thoughts for creation using visualization and utilizing references from the concept art work arranged by the creators, drawing from creative ability, acting and performing.
3. Give priority to target audience, schedule and show requirements.
UNIT 3.1: Create Hookup Poses and Animation

Unit Objectives

At the end of this unit, students will be able to:

1. Enact and emote
2. Learn to create hook up poses and animation

Explain

• Fundamental of animation
• Hook up poses
• Hook up errors

Ask

1. Explain animation
2. Explain hook up errors with example?

Notes for Facilitation

- Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
- Before beginning the session, ask the students about what they learnt in the last session.
- Explain the Objectives of the current session.
- Use power point presentation to describe the topic.
- Divide the participants in groups and assign work related to the session for their better understanding.
- Give assignment to measure the student understanding of the topic.
- Ensure that the session plan should be followed according to time duration to complete the course in-time.
- Discuss the assignment questions with the students and provide correct answers.

At the end of the session summarize the key learning.
UNIT 3.2: Use Camera Angles to Emphasize Performance

Unit Objectives

At the end of this unit, students will be able to:

1. Learn to use camera angles to emphasize performance.
2. Identify the different types of camera shots.

Explain

- Different camera shots
- Explain different camera lens
- Different camera moves

Ask

Q1. What is ultra-wide shot?
Q2. Difference between wide & mid shot?
Q3. In what situations, extreme close up shot is used?
Q4. What is focal length of standard lens?
Q5. Explain fisheye lens?
Q6. Explain fixed shot?
Q7. What is dolly shot?
Q8. What is the difference between fade & wipe?
Q9. Explain ripple effect?
Q10. What do you mean by aspect ratio?

Notes for Facilitation

- Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
- Before beginning the session, ask the students about what they learnt in the last session.
- Explain the Objectives of the current session.
- Use power point presentation to describe the topic.
- Divide the participants in groups and assign work related to the session for their better understanding.
- Give assignment to measure the student understanding of the topic.
- Ensure that the session plan should be followed according to time duration to complete the course in-time.
- Discuss the assignment questions with the students and provide correct answers.

At the end of the session summarize the key learning.
4. Animation Workflow and Tools

Unit 4.1 - Animation Workflow
Unit 4.2 - Tools Used for Animation
Key Learning Outcomes

At the end of this module, students will be able to:

- Be aware of various software production tools available in market today. Suggest the most optimum tool for the production.
- Access timelines for production with respect to the production agenda
Unit 4.1: Animation Workflow

Unit Objectives

At the end of this unit, students will be able to:

- Follow the work plan including production schedule, workflow, timelines, department wise output targets and technical specifications for the show.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1. What is 2D and 3D animation?
Q2. Explain 3D environment?
Q3. What is compositing?

Summarize

- Summarize the animation workflow.
Unit 4.2: Tools Used for Animation

Unit Objectives

At the end of this unit, students will be able to:
Identify the software tool(s) to be used for production for 2D and 3D animation.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1. What are the different tools for 2D animation?
Q2. What are different animation softwares?
Q3. What are different editing softwares?

Summarize

- Summarize different tools used for 2D animation
5. Produce 2D Animation

Unit 5.1 - Animation Workflow
Unit 5.2 - Working on Flash
Key Learning Outcomes

At the end of this module, students will be able to:

- Go about the storyboard for composition. Position the character with respect to the background and camera to make the desired animation.
- Draw the key frame drawings to get a reference point for strong poses and incorporate audio or music assets.
- Understand the concept of Hook-up or transition from one scene to another.
- Work with layers to get good perspective views.
- Effectively work with the team and other departments (assets, lighting and effects).
- Review the animation looking at the creative and design specifications along with the brief.
- Meet quality standards (reducing iterations) so that they are delivered within time.

Use the principles of design, film-making and 2D animation to create sequences and scenes.
Unit 5.1: Animation Workflow

Unit Objectives

At the end of this unit, students will be able to:
1. create a prototype 2D output/pre-visualisation for review
2. Effectively use the Photoshop software

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: What are different color formats in photoshop?
Q2: What are different file formats in photoshop?

Summarize

- Summarize the usage and importance Photoshop in animation.
Unit 5.2: Working on Flash

Unit Objectives

At the end of this unit, students will be able to:

1. Familiarize with Application of 2D animation techniques.
2. Working on Flash Software.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q4. What are the steps to test planning process?
Q5. Explain UV Mapping?
Q6. How to test a deliverable output?

Summarize

- Summarize the importance of Artist’s Appearance.
6. Produce 3D Animation

Unit 6.1 - Produce 3D Animation
Unit 6.2 - Creating, Manipulating and Viewing Objects
Unit 6.3 - Viewing the Maya 3D Scene
Unit 6.4 - Polygonal Modelling
Unit 6.5 - NURBS Modeling
Unit 6.6 - Animation
Unit 6.7 - Polygon Texturing
Unit 6.8 - Rendering
Key Learning Outcomes

At the end of this module, students will be able to:

- Make films by applying principles of 3D animation and design.
- Work on motion or performance capture studio.
- Prototype pre-visualisation making for review.
- Critically review animation produced
- Apply 3D animation techniques like realistic 3D animation (key frame animation plus motion capture)
Unit 6.1: Produce 3D Animation

Unit Objectives

At the end of this unit, students will be able to:

1. Prepare 3D animation end-products using Maya Software.
2. Make films by applying principles of 3D animation and design.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1. How do you use status line buttons in Maya?
Q2. How do you add Layouts and Scripts to a Shelf?
Q7. What are secret menu in maya?

Summarize

- Summarize the process of creating 3D animation in Maya.
Unit 6.2: Creating, Manipulating and Viewing Objects

Unit Objectives

At the end of this unit, students will be able to:

1. Create 3Dimensional primitive objects.
2. Select objects for editing purposes.
3. Rotate and move objects using mouse

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: How do you create a new scene in maya?
Q2: Explain primitive objects?
Q3: How do you duplicate objects in Maya?

Summarize

- Summarize the process of creating, modifying and viewing objects in Maya.
Unit 6.3: Viewing the Maya 3D Scene

Unit Objectives

At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-Viewing the Maya 3D Scene.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: What are different projections?
Q2: How do you group objects in Maya?
Q3: Explain Hypergraph?
Q4: Explain Pivot points?

Summarize

• Summarize viewing 3D maya scene in Maya.
Unit Objectives

At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-Polygonal Modelling.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: Explain Modelling process?
Q2: How do you model in shaded mode in maya?
Q3: How do you edit components in Maya?

Summarize

- Summarize the importance of Artist’s Appearance.
Unit 6.5: NURBS Modeling

Unit Objectives
At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-NURBS.

Notes for Facilitation
1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask
Q1: Explain NURBS?
Q2: How do you create a revolve surface in Maya?
Q3: How do you sculpt a nose in Maya?

Summarize
- Summarize NURBS modelling
Unit 6.6: Animation

Unit Objectives

At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-Animation.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: What is meant by playback range?
Q2: How do you fine tune animation in Maya?

Summarize

- Summarize animation.
Unit 6.7: Polygon Texturing

Unit Objectives

At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-Polygon texturing.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: How do you create a cracker box model?
Q2: How do you assign shading to cracker box?

Summarize

• Summarize Polygon texturing.
Unit 6.8: Rendering

Unit Objectives

At the end of this unit, students will be able to:
Application of 3D animation techniques on Maya Software-Rendering.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: What is rendering?
Q2: How do you render a scene in Maya?

Summarize

- Summarize rendering process.
7. Stop Motion Animation

Unit 7.1 - Stop Motion Using Stop Motion Pro
Key Learning Outcomes

At the end of this module, students will be able to:

- Animate stop motion characters
- Contribute creative ideas during the animation process.
- Apply stop motion animation techniques.
- Stop Motion Using Stop Motion Pro, Apply stop motion animation techniques using Stop motion Pro Software.
Unit 7.1: Stop Motion Using Stop Motion Pro

Unit Objectives

At the end of this unit, students will be able to:
- Animate stop motion characters.
- Contribute creative ideas during the animation process.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.

Ask

Q1: What is stop motion?
Q2: How do you edit the animation?
Q8. How do you make animation with audio?

Summarize

- Summarize stop motion using stop motion pro.
8. Maintain Workplace Health & Safety

Unit 8.1 - Maintain Workplace Health & Safety
Key Learning Outcomes

At the end of this module, students will be able to:

1. Understand and comply with the organisation’s current health, safety and security policies and procedures.
2. Understand the safe working practices pertaining to own occupation.
3. Understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises.
4. Identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency.
5. Identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms.
6. Identify aspects of your workplace that could cause potential risk to own and others health and safety.
7. Ensure own personal health and safety, and that of others in the workplace though precautionary measures.
8. Identify and recommend opportunities for improving health, safety, and security to the designated person.
9. Identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individual’s authority.
Unit 8.1: Workplace Health & Safety

Unit Objectives

At the end of this unit, students will be able to:

1. Ensure own personal health and safety, and that of others in the workplace through precautionary measures.
2. Identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individual’s authority.
3. Identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency.

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. What are natural calamities?
Q2. What will you do if someone faints?
Q3. What causes Shock?
Q4. When will you call for emergency medical aid?
Q5. What is first aid?
9. Communication Skills and Professional Skills

Unit 9.1 - Communication Skills

Unit 9.2 - Professional Skills
Key Learning Outcomes

At the end of this module, students will be able to:

1. Read and understand the script and character descriptions.
2. Read the work plan and production schedule to ensure that progress is in line.
3. Collaborate effectively and communicate clearly with the one who are working with the previous or next scenes/shot.
4. Understand the modifications required from the Director, Animation supervisor and Producer.
5. Discuss the challenges faced during production and discuss ways to address such challenges in future projects.
6. Make decisions in order to be able to work collectively and independently, where required.
7. Comprehend shot break up and plan time & effort which may be required for every element of shot.
8. How to plan the tasks and prioritise various activities & individual timelines and delivering on schedule.
9. Work efficiently a team member and help the team achieve overall timelines.
10. Prioritise work-products and tasks based on requirements.
Unit 9.1: Communication Skills

Unit Objectives

At the end of this unit, students will be able to:

1. Read and understand the script and character descriptions.
2. Clearly communicate and collaborate effectively with colleagues who are working with the previous or next scenes/shots.
3. Discuss various challenges faced during production and also ways to handle such challenges in future project.

Explain

1. Communication Process
2. Importance of Listening Skills
3. Importance of speaking skills
4. Importance of writing skills

Notes for Facilitation

1. Use power point presentation to describe the topic.
2. Start the session by stating the Session Objectives.
3. During the session make sure all participants attentively listen to understand the content you deliver.
4. Ensure that the session plan should be followed according to time duration to complete the course in-time.
5. At the end of session ask questions given in assessment section.
6. Before concluding the session summarize the key learning or takes away.

Ask

Q1. Explain the basics of communication skills?
Q2. How to engaging your audience?
Q3. What to do, if a person asks to repeat what you said?
Q4. How many components of communication process?
Q5. What are the major elements of communication process?
Q6. What are the objectives of listening?
Q7. What is active listening process?
Q8. Explain the types of barriers to effective listening?
Q9. What are the components of speaking skills?
Unit 9.2: Professional Skills

Unit Objectives

At the end of this unit, students will be able to:
1. Learn how to make decisions which will help you work better independently and collectively.
2. Will be able to create effective plans and time required for each element.
3. Will learn how to set priorities and execute plan so as to meet deadlines and be on time
4. Be an efficient team worker
5. Set work products priorities and tasks based entirely on requirements.

Explain

1. Decision making process
2. Importance of time management
3. Benefits of team work
4. Customer centric approach

Notes for Facilitation

1. Use power point presentation to describe the topic.
2. Start the session by stating the Session Objectives.
3. During the session make sure all participants attentively listen to understand the content you deliver.
4. Ensure that the session plan should be followed according to time duration to complete the course in-time
5. At the end of session ask questions given in assessment section.
6. Before concluding the session summarize the key learning or takes away

Ask

Q1. What is decision making?
Q2. What may inhibit effective decision-making?
Q3. Explain the process of analytical and critical thinking?
Q4. What are the steps for planning and organizing?
Q5. What is time management?
Q6. What are the benefits and losses of team work?
Q7. What is the importance of customer centricity?
10. Employability & Entrepreneurship Skills

Unit 10.1 – Personal Strengths & Value Systems

Unit 10.2 – Digital Literacy: A Recap

Unit 10.3 – Money Matters

Unit 10.4 – Preparing for Employment & Self Employment

Unit 10.5 – Understanding Entrepreneurship Unit

Unit 10.6 – Preparing to be an Entrepreneur
Key Learning Outcomes

At the end of this module, students will be able to:

1. Understand value system
2. Appreciate the role of digital literacy
3. Understand Money Matters
4. Appreciate the concept of self-employment
5. Who is entrepreneur
6. How to be an entrepreneur
Unit Objectives

At the end of this unit, students will be able to:

- Explain the meaning of hygiene
- Understand the purpose of Swacch Bharat Abhiyan
- Explain the meaning of habit
- Discuss ways to set up a safe work environment
- Discuss critical safety habits to be followed by employees
- Explain the importance of self-analysis
- Understand motivation with the help of Maslow’s Hierarchy of Needs
- Discuss the meaning of achievement motivation
- List the characteristics of entrepreneurs with achievement motivation
- List the different factors that motivate you
- Discuss how to maintain a positive attitude
- Discuss the role of attitude in self-analysis
- List your strengths and weaknesses
- Discuss how to foster a good work ethic
- List the characteristics of highly creative people
- List the characteristics of highly innovative people
- Discuss the benefits of time management
- List the traits of effective time managers
- Describe effective time management technique
- Discuss the importance of anger management
- Discuss the symptoms of stress
- Discuss tips for stress management
Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. What is WHO?
Q2. How is hygiene and Health related?
Q3. What is self actualization in Maslows pyramid?
Q4. Why is positive attitude important?
Q5. What is meaning of ethics?
Q6. What is innovation?
Q7. What is cognitive restructuring?
Unit 10.2: Digital Literacy: A Recap

Unit Objectives

At the end of this unit, students will be able to:

1. Identify the basic parts of a computer
2. Identify the basic parts of a keyboard
3. Recall basic computer terminology
4. Recall basic computer terminology
5. Recall the functions of basic computer keys
6. Discuss the main applications of MS Office
7. Discuss the benefits of Microsoft Outlook
8. Discuss the different types of e-commerce
9. List the benefits of e-commerce for retailers and customers
10. Discuss how the Digital India campaign will help boost e-commerce in India
11. Describe how you will sell a product or service on an e-commerce platform

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. What is a cursor?
Q2. What does ESC do?
Q3. What is Microsoft Access?
Q4. Explain B2B and C2C?
Unit 10.3: Money Matters

Unit Objectives

At the end of this unit, students will be able to:
1. Discuss the importance of saving money
2. Discuss the benefits of saving money
3. Discuss the main types of bank accounts
4. Describe the process of opening a bank account
5. Differentiate between fixed and variable costs
6. Describe the main types of investment options
7. Describe the different types of insurance products
8. Describe the different types of taxes
9. Discuss the uses of online banking
10. Discuss the main types of electronic funds transfers

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. Why is investing important?
Q2. What are recurring accounts?
Q3. What is the Nature of Variable costs?
Q4. What is a Private equity?
Q5. What is Capital gain tax?
Q6. What is RTGS?
Unit 10.4: Preparing for Employment & Self Employment

Unit Objectives

At the end of this unit, students will be able to:

1. Discuss the steps to prepare for an interview
2. Discuss the steps to create an effective Resume
3. Discuss the most frequently asked interview questions
4. Discuss how to answer the most frequently asked interview questions
5. Discuss basic workplace terminology

Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic
6. Ensure that the session plan should be followed according to time duration to complete the course in-time
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. Why is preparation important for interview?
Q2. What will you include in personal skills?
Q3. Why do you want the job- reasoning?
Q4. How will you identify strengths?
Q5. What does CV stand for?
Unit Objectives

At the end of this unit, students will be able to:

1. Discuss the concept of entrepreneurship
2. Discuss the importance of entrepreneurship
3. Describe the characteristics of an entrepreneur
4. Describe the different types of enterprises
5. List the qualities of an effective leader
6. Discuss the benefits of effective leadership
7. List the traits of an effective team
8. Discuss the importance of listening effectively
9. Discuss how to listen effectively
10. Discuss the importance of speaking effectively
11. Discuss how to speak effectively
12. Discuss how to solve problems
13. List important problem solving traits
14. Discuss ways to assess problem solving skills
15. Discuss the importance of negotiation
16. Discuss how to negotiate
17. Discuss how to identify new business opportunities
18. Discuss how to identify business opportunities within your business
19. Understand the meaning of entrepreneur
20. Describe the different types of entrepreneurs
21. List the characteristics of entrepreneurs
22. Recall entrepreneur success stories
23. Discuss the entrepreneurial process
24. Describe the entrepreneurship ecosystem
Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

Q1. What is entrepreneurship?
Q2. What makes a good entrepreneur?
Q3. What is a LLP?
Q4. How is reinvention important?
Q5. What are two elements of problem solving?
Q6. What is SWOT analysis?
Q7. Name two types of entrepreneurs.
Q8. What is Make in India campaign?
Q9. What is Risk Appetite?
Unit 10.6: Preparing to be an Entrepreneur

Unit Objectives

At the end of this unit, students will be able to:

1. Discuss how market research is carried out
2. Describe the 4 Ps of marketing
3. Discuss the importance of idea generation
4. Recall basic business terminology
5. Discuss the need for CRM
6. Discuss the benefits of CRM
7. Discuss the need for networking
8. Discuss the benefits of networking
9. Understand the importance of setting goals
10. Differentiate between short-term, medium-term and long-term goals
11. Discuss how to write a business plan
12. Explain the financial planning process
13. Discuss ways to manage your risk
14. Describe the procedure and formalities for applying for bank finance
15. Discuss how to manage your own enterprise
16. List important questions that every entrepreneur should ask before starting an enterprise
Notes for Facilitation

1. Ensure all the required material and equipment related to session is in place and in proper working condition before starting the session.
2. Before beginning the session, ask the students about what they learnt in the last session.
3. Explain the Objectives of the current session.
4. Use power point presentation to describe the topic.
5. Give assignment to measure the student understanding of the topic.
6. Ensure that the session plan should be followed according to time duration to complete the course in-time.
7. Discuss the assignment questions with the students and provide correct answers.
8. At the end of the session summarize the key learning.

Ask

1. What are the 4 P’s?
2. What is Depreciation?
3. What is ROI?
4. Why is networking important?
5. How will one set goals?
6. What is business plan?
7. What are channels of distribution?
8. What documents must be prepared for loans?
9. What is seed funding?

**Pre-requisites to Training**

This job requires the individual to know the fundamentals of life drawing including human anatomy, emotions, actions and expressions. The individual must know and keep updated on graphics and animation software and apply principles of design, animation and film-making to create animation sequences. The individual must be able to collaborate and work effectively as a member of a team to deliver work-products within requisite timelines.

**Training Outcomes**

*By the end of this program, the participants would have achieved the following competencies:*

1. Understand Animation Requirements
2. Produce 3D Animation.
3. Conceptualise Creative Ideas for Production
4. Produce Stop Motion Animation. Plan Tools and Workflow.
5. Maintain workplace health and safety.
6. Produce 2D Animation.

</table>

Note: MES/N 0704, MES/N 0705 & MES/N 0706 Student would be assessed for only one NOS out of the three NOS’s 100%

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.

2. The assessment for the theory & Practical part will be based on knowledge bank of questions created by the AA and approved by SSC.

3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).

4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria.

5. To pass the Qualification Pack, every trainee should score a minimum of 70% cumulatively (Theory and Practical).

</tbody>
</table>
Do

- Explain each Guideline for Assessment in detail
- Explain the score that each trainee needs to obtain
- Recapitulate each NOS one-by-one and take participants through the allocation of marks for Theory and Skills Practical.
- Explain the Allocation of Marks. Explain that they will be assessed on Theory and Skills Practical.
