Annexure: Assessment Criteria

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Assistant Spa Therapist
Qualification Pack PWD/BWS/Q1001, Version 1.0
Skill Councils Skill Council for Persons with Disability and Beauty and Wellness Sector Skill Council

Guidelines for Assessment

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% in every NOS and 50% in overall QP
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Accommodation Guidelines recommended for Inclusive Trainers

Persons with Blindness and Low Vision

Characteristics

- The Learning happens through non-visual modes mostly by Touch, hence it is recommended to use real, concrete materials.
- Listening will include greater use of detailed and descriptive instructions.
- Training which relates to understanding of Smell and Taste real & concrete material should be used e.g. Job Role of Pickle making Technician may include training on smell and taste.

Guidelines for Trainers

- Facilitate the use of existing visual skills wherever/whenever you can by making the candidate sit closer to the board. (with special reference for Persons with Low Vision)
- Appropriate lighting. Use of contrast colors.
- Use specialized material available (Braille, Taylor frame, Math’s Kit)
- Use orientation and Mobility training
- Reserve a seat in the front row of the classroom (or, closer to the teacher).
- Keep the passages and available open spaces in the classroom clear.
- When speaking with the VI child specifically, address her/him by name.
- Modify/adapt assignments
- Provide students with tactile graphs and diagrams.
- Keep in mind, there may be instances when the VI student may not have had exposure to the material discussed in class and for which the persons may not have a prior experiences or references (for example, food in altered form: popcorn v/s whole corn, sliced mango v/s the whole fruit/shape; materials and sources: water-ice, vapor; curd-butter milk; milk-cows), occupations (tailor, doctor, engineer).
- Use educational aids like talking books, tape-recorders, Use of Colour, contrast and texture
- Minimize noise so that students with VI can hear you speak
- When speaking, face the class.
- If you feel the VI student is not attentive, touch her/him on the shoulder or arm to draw attention; this also helps in indicating to the student that you are including her/him in your instructions and discussions.
- Provide large print, Braille versions when needed so that the VI child can follow the classroom’s text-based teaching and lessons along with the sighted peers.
- Use real objects to allow the student to learn and experience
- Provide students with tactile graphs and diagrams where available.
- Consider alternative assignments (as explained in the previous box)

Persons with Hearing Impairment (HI)

Characteristics

- Use other senses as mediums of learning. (Use gestures, body language, expressions, lip reading etc.)
- Use adapted material such as visual or sight vocabulary to provide first-hand experience.
- Use assistive devices such as hearing aid, loop system etc.
- Teach how to access sound-based information.

Guidelines for Trainers
• Make sure you are aware of the learners’ language abilities and preferred learning style to ensure inclusion into the group.
• When you have a student with HI in the group, reduce background noise or, request for a classroom that is away from noise. Make sure you have the whole group’s attention before starting the session.
• Allow HI students to sit where they wish. HI students who can read the lip should sit near the front. (Optimum distance for lip-reading is considered to be about 6 feet.)
• Face the HI student when speaking.
• Use clear speech.
• Make sure the room is well lit to allow the student with HI to see your facial expression, signing and/or lip read.
• Use assistive device where available, to facilitate teaching-learning in the classroom.
• Arrange the classroom so that students can see each other, e.g., organizing the class in a circle or semicircle allows all students to see each other.
• Use shorter sentences, clearer speech.
• Associate words with real objects, pictures; for example, the colour concept
• Use pictures (flash cards), real objects, real experiences, dramatization, and activities.
• You can write key points on the board or chart.
• Encourage other people or staff to develop communication strategies so that they can get into the style of students with HI

Persons with Locomotor Disability

Characteristics

Need specific requirement for a student with impairment to the lower limbs:

• Appropriate/suitable seating if not in a wheelchair;
• Adequate space and height of desk if the student is in a wheelchair;
• Consider alternative to activities involving writing, drawing and other fine motor activities, such as sorting, threading, solving puzzles, etc. for persons with upper limb affected.

Some considerations as the students with physical disabilities may experience limitations in one of the following ways:

• Difficulty in writing
• Sitting at a standard desk or on the floor;
• Participating in activities where tables and instruments are difficult to access
• Movements within the class and within the school;
• Mobility in spaces that are not user friendly for wheelchair.

Guidelines for Trainers

1. Make the classroom accessible.
2. Alternative modes of communicating such as audio recorder, or support for note taking, gestures, pictures, computers may be used.
3. Provide accessible seating and a table in the classroom.
4. Make writers available for written work and for tests and exams.
5. Give additional time for completing assignments/exams
6. Provide a supportive and welcoming environment by sensitizing other students/staff and creating a sense of responsibility in them.
7. Should be comfortably seated and with proper posture.
8. Free movement of learners within the class must be ensured.
9. Learners can be shown pictures or other visual cues, concrete objects, a few at a time, for better understanding.
10. Audio books, daisy books or books on computer, as found suitable, can be used for reading. Alternatively, a classmate can read aloud to the child.
11. Make use of computers for teaching learning, if possible.
12. Extra time for writing should be given if the child is able to write on his / her own and there should not be undue emphasis on the quality of writing as long as it is legible.
13. Students can use adapted brushes, modified pencils and thick markers that can be gripped easily, for drawing. Alternatively, the children can use stamping methods or paste cut outs. The books, papers, brushes etc. can be fixed on the table with the help of tape etc. so that they do not slip down.
14. For assessment, have students present the material orally or if required, with the help of a scribe. Use objective type, multiple type questions using yes/no or true/false answers.
