OVERVIEW

National Skill Development Corporation ("NSDC"), a Section 25 Company under Companies Act, 1956 (corresponding to Section 8 of the Companies Act, 2013), was initially set up under the Prime Minister’s National Council on Skill Development with the primary mandate of enhancing and supporting private sector initiatives for Skill Development in India through appropriate Public-Private Partnership ("PPP") models and striving for significant operational and financial involvement from the private sector. At present, NSDC functions under the aegis of the Ministry of Skill Development & Entrepreneurship ("MSDE").

In order to foster skill development across the country, NSDC provides funding and non-funding support to enterprises, companies, and organizations across India to build capacity by providing technical assistance, financial support, branding support, thought leadership, knowledge management, and other support appropriate for the sector. Playing the role of a market-maker, NSDC is responsible for enhancing and strengthening skill development initiatives and ensuring long-term stability and growth of the sector.

NSDC through this Scheme endeavors to create a sustainable and enabling skill training ecosystem by promoting provision of market led Fee-based Services which are funded under the following models – (i) self-financed by the candidate, (ii) financed by candidate or Partner through a loan or under an income sharing arrangement with the Partner, (iii) financed by an employer, (iv) financed by a company or other corporate body under a program or as part of its CSR obligation, (v) financed by any charitable organization, or (vi) a combination of any of the above.

This Scheme also intends to establish a framework for aggregate and standardized training in high growth sectors by engaging ‘for-profit’ entities, ‘not for-profit’ entities, corporates, start-ups, trust, societies, foundations etc., as Partners on service-to-service basis and provide joint certification with the Partner to the candidates, wherever such joint certification is desirable and feasible. The Scheme will help in creating a verifiable repository of data of all the candidates being trained by the Partners under the Scheme.

OBJECTIVES OF THE SCHEME

NSDC, through this Scheme aims to –

a) support Fee-based Services in high growth sectors and emerging technologies thereby creating large pool of skilled and certified workforce for these sectors;

b) design, support and enable innovations in the fee-based training ecosystem;

c) scale outcome oriented and successful fee-based training programs by providing financial and/or technical assistance, including concessional skill loans, industry partnerships, apprenticeship, access to Skill India Portal ("SIP") and training networks and other enabling support;

d) create large pool of skilling, re-skilling and upskilling Fee based Services to enable life-long learning and improved productivity of working professionals;
e) aggregate data of certified trainees on a single digital platform for creating a repository and reporting and monitoring through SIP.

**FEATURES OF SERVICE**

At the time of submitting the Proposal, the Applicant shall be required to provide details of the prospective Services it intends to offer in association with NSDC under this Scheme.

A Partner whose Service has already been approved under the Scheme may also submit Proposal for including additional Services as part of the Scheme by submitting the details of the Service. In such cases, ordinarily the Service alone may be assessed and approved without going through a detailed assessment of the Applicant, unless NSDC determines that such assessment is required on a case-to-case basis.

NSDC reserves its right to further relax the aforesaid requirement if in the sole satisfaction and judgment of NSDC, the Services organized by the Applicant intend to cater the vulnerable segments of the society including but not limited to gig workforce, women and un-catered geographies and sectors.

d) The minimum annual pay scale offered to the candidates post completion and certification of a specified course or program forming part of the Service approved under the Scheme shall be in compliance with the minimum wages legislation for a particular state where the Partner is operating.
